Behavioral Risk Factor Surveillance System San Antonio Metropolitan Statistical Area 2008

The Behavioral Risk Factor Surveillance System (BRFSS) is a random telephone survey of state residents aged 18 and older in households with telephones. The (BRFSS) is a state-based surveillance system, administered by the Department of State Health Services in Texas, in collaboration with the Centers for Disease Control and Prevention (CDC).

BRFSS data is collected for Metropolitan Statistical Areas (MSAs) rather than individual counties. The San Antonio Metropolitan Statistical Area (MSA) in 2008 includes an eight county region with a total population of 2,031,445 (see table). The BFRSS survey sampled 1,420 individuals in 2008. Because of this relatively small sample size for the MSA the local estimates are not as accurate as the national estimates and may result in over or under reporting of health behaviors in San Antonio.

<u> </u>	
San Antonio MSA	Population 2008
Atascosa	43,877
Bandera	20,303
Bexar	1,622,899
Comal	109,635
Guadalupe	117,172
Kendall	32,886
Medina	44,275
Wilson	40,398
Total	2,031,445
